

What is the Bethany Dual Credit Program?

The Dual Credit Program at Bethany helps students get a head start in college by offering affordable online courses that high school students can take to earn college credits. These credits may be applied toward a Bethany Lutheran College degree, or they may be transferred to other colleges (subject to their credit transfer policies).

In addition to earning college credit, online courses at Bethany may meet high school course requirements and count for high school credit. Contact your high school guidance department for more information about Bethany dual credit courses offered at your school.

Why do high school students take Bethany courses?

- **Explore college programs**
- **Save money on college tuition**
- **Enrich their future college experience** (Earning college credits early can lighten loads during college so students can comfortably participate in college athletics, spend a semester studying in another country, or gain experience working an internship.)
- **Prove their ability to succeed in a college course**

What sets the Dual Credit Program at Bethany apart is our commitment to mentoring our students as they pursue quality Christian higher education. Bethany professors team up with advisors at our partner schools to give students a network of support as they adjust to the rigor of college courses.

Free Online Tutoring is Available for Dual Credit Students

High school dual credit students are able to connect online with tutors in Bethany's Academic Resource Center. When they need support, online students are able to schedule regular meetings with tutors dedicated to helping develop study skills necessary for success in online college courses.

How much do dual credit courses cost?

Dual credit courses are one semester long (concurrent with the Bethany academic calendar) and are normally priced at \$1,200 per credit. However, students that attend a **Bethany Advantage Partner School*** are eligible for the **Bethany Advantage Grant** allowing qualified high school students to take courses at just \$125 per credit.

Students pay any additional course fees and purchase their own textbooks.

High Schools: If you are interested in offering a class through one of your on-site instructors, ask us about the Bethany Endorsed Instructor option.

* A complete list of Partner Schools can be found at blc.edu/bethany-advantage-partner-schools.

Boost Program

From the start of the junior year of high school through senior year, these are the online college classes often taken by area of interest and the typical order.
